In the Claims:

Please cancel original claims 1-15 and add new claims 16-25, all as shown below. This listing of claims will replace all prior versions, and listings, of claims in the application.

1 – 15 (Cancelled)

16. (New): A method for formatting Web page information for providing to a display on a mobile device comprising the steps of:

initiating access to a Web page data file identified by a URL, access imitated by a user selection of the URL from the mobile device, wherein the Web page contains both content and links;

extracting the links from the content of the Web page, said extracting performed without receiving further input from a user; and

providing the links separately from the content for viewing on the display.

17. (New): The method of claim 16, wherein the step of providing the links separately from the content comprises the steps of:

determining if more than one of the links identifies a single destination, and if so providing only one of the links identifying the single destination to the display.

18. (New): The method of claim 16, wherein the step of providing the links separately from the content comprises the steps of:

defining names for links identified by text in the Web page using at least a portion of the identifying text; and

defining names for links identified by a non-text image in the Web page by using at least a portion of text in an alternative (ALT) tag for the image if text is provided in an ALT tag associated with the image.

19.   (New): The method of claim 18, further comprising the step of:

defining names for links identified by non-text images in the Web page by using at least a portion of a URL code for the link when no text is provided in the ALT tag for the image.

20.   (New): The method of claim 18, further comprising the step of:

defining names for links identified by non-text images in the Web page by using content of documents accessed using the links when no text is provided in the ALT tag for the image.

21.   (New): The method of claim 20, wherein the content of the documents accessed using the link are titles.

22.   (New): The method of claim 18, further comprising the step of:

defining names for links identified by non-text images in the Web page by using identifications for the links obtained from offsite documents when no text is provided in the ALT tag for the image.

23.   (New): The method of claim 16, wherein the step of providing the links comprises the step of:

arranging an order of the links for viewing on the display based on a structure of the Web page.

24.   (New): The method of claim 16, wherein the mobile device consists of one or more of the following:

an Internet phone;

a personal digital assistant; and

a two way pager.

25.   (New): The method of claim 16, wherein the links are categorized as first links, the method further comprising the steps of:

accessing a second Web page data file identified by a second URL, wherein the Web page contains both content and links;

extracting the links from the content of the second Web page to provide second links; and

providing the second links with the first links for viewing on the display.
